

SION HILL

Bath School of Art and Design is near the centre of Bath at the top of Sion Hill with exceptional views across the city. Sion Hill campus is the main hub for the School providing workshops, studios, seminar rooms, a lecture theatre and specialist library.

Working into the evenings, it is possible to see the most amazing sunsets across the valley and sometimes a deer or two in the School grounds. In the city centre, Fashion can be found in the enviable location No 4 The Circus, which is just a moment away from the Fashion Museum.

Additional Dartmouth Avenue artists studios are in the city's student quarter, and the research facilities are in the very impressive setting of Corsham Court.

From age old, artisan printing techniques to cutting edge 3D printing technology, our facilities are some of the best to be found anywhere in the world. In each discipline we encourage depth of subject understanding, yet a multidisciplinary approach, and the range of exceptional equipment and workshops in wood, metal, ceramics, textiles, print, photography, plastic, casting, paint, fashion and digital technologies support this experience.
